## Chin National Front Statement on the 70<sup>th</sup> Chin National Day

The 70<sup>th</sup> Chin National Day which falls on February 20, 2018 is an auspicious day that the Chin National Conference which was convened in 1948 at Falam substituted, exercising the right to self-determination, feudal system with democratic system for the sake of building Chinland in accordance with a changing age.

The Chin National Front has negotiated and settled that February 20 will be re-designated as the 'Chin National Day' and January 3 will be designated as 'Chin State Day' according to article (11) of the first Union Level Bilateral Ceasefire Agreement and article (2, 3) of the second Union Level Bilateral Ceasefire Agreement which was signed between the Chin National Front and Union Government, respectively on May 7, 2012 and December 9, 2012.

The essence of Chin National Day is national awakening, national unity, right to self-determination and safeguarding national identity. Therefore, the Chin National Front encourages the entire Chin people to celebrate the Chin National Day which falls on February 20 by upholding its values.

The Chin National Front will work hand in hand with the Chin people in current peace process as it is carrying out a new political culture of peace dialogue, without exercising military means, for conflict resolution so as to build a Federal Union that fully guarantees rights to Self-Determination, Ethnic Equality and Democracy.

By means of a collective endeavor of the Union citizens, the Union of Burma will only be able to resolve political conflict, ethnic conflict, armed conflict and consequential problems that it is experiencing for (70) years. Therefore, the Chin National Front urges that the entire Chin people work together, with patriotic spirit, for the building of Chinland and the Union.

Central Executive Committee
