#### Statement of Chin National Front on the 71<sup>st</sup> Chin National Day

Today – February 20, 2019 – is the 71<sup>st</sup> Chin National Day on which the “First Chin National Conference,” attended by over 5,000 people, had unanimously approved to practice democratic system in Chinland as a substitute for system of chieftainship. We wish that the Chin people be filled with abundant blessings at this auspicious occasion and that you will celebrate the Chin National Day in its full essence.

On this auspicious national day, we pay due respect to Chin national leaders and the Chin people who have given their sweat, blood and life for the emergence, resurgence and legitimacy of Chin National Day which marks the nationhood of the Chin people.

The essence of Chin National Day is a nationhood of Chin people of all tribes, safeguarding of national identity, national awakening and national solidarity. To preserve this national essence, we must end 70 years long civil war and build the Federal Democratic Union that guarantees right to self-determination and ethnic equality through meaningful political dialogues.

Chin National Front is engaging in armed resistance together with the Chin people for over 30 years in order to regain right to Chin self-determination and ethnic equality, which is of Chin national interest and Chin people are deserved of, and to build the Federal Democratic Union.

We urge the entire Chin people to re-energize on this 71<sup>st</sup> Chin National Day to regain our right to self-determination, to establish a Federal Union and to revitalize democracy as well as to support the Chin National Front unrelentingly in national political movement.
